[2021] Download Bigfile.000 For Tomb Raider Legend

Mar 3, 2016 Click on "bigfile.000" or "bigfile.000.tiger" and choose "extract" from the dropdown box at the top. If it doesn't work, be sure to set the path to the "bigfile.000" folder to the location where it is extracted to. Download Tomb Raider: Legend Select Main File Dec 12, 2014 How do I decompile TR Legend? And I'm also curious to know how to decompile the necessary meshes and texture files Dec 22, 2014 Is there an option in TR Legend to re-package the game with the files decompiled? Dec 24, 2014 For TR Legend, is there an option to include the non-drm textures (in 'Textures.zip') in the game? Dec 24, 2014 Is there an option in TR Legend to re-package the game with the files decompiled? Dec 26, 2014 For TR Legend, is there an option to include the non-drm textures (in 'Textures.zip') in the game? Dec 26, 2014 Is there an option in TR Legend to re-package the game with the files decompiled? Dec 27, 2014 For TR Legend, is there an option to include the non-drm textures (in 'Textures.zip') in the game? Dec 27, 2014 Is there an option in TR Legend to re-package the game with the files decompiled? Mar 13, 2015 Is there an option in TR Legend to re-package the game with the files decompiled? Apr 4, 2015 For TR Legend, is there an option to include the non-drm textures (in 'Textures.zip') in the game? Apr 9, 2015 Is there an option in TR Legend to re-package the game with the files decompiled? Apr 9, 2015 For TR Legend, is there an option to include the non-drm textures (in 'Textures.zip') in the game? Apr 12, 2015 Is there an option in TR Legend to re-package the game with the files decompiled? Apr 20, 2015 Is there an option in TR Legend to re-package the game with the files decompiled? Apr

21, 2015 Is there an option in TR Legend to re-package the game with the files

[Download](#)

A: There's no DRM for game BIGFILE.000, only for game TR7. DRM for BIGFILE.000 is just error message. unpack some of the files in folder BIGFILE.000 (not all the files) look for folder TIGER_DRM on downloaded folder TIGER_DRM_DATA copy all files in folder TIGER_DRM to TIGER_DRM_DATA (backup folder first) open the file TR7.exe (at the end of file TIGER_DRM) change this value: TR7_DRM_DRV_Vendor=Generic(x0) TR7_DRM_DRV_ID=DEADBEAT TR7_DRM_DRV_Rev=0 TR7_DRM_DRV_Ext=1.0.0 TR7_DRM_DRV_Flags=0x3e000000 TR7_DRM_DRV_Name=DRM Deadbeat to this value: TR7_DRM_DRV_Vendor=GDI(x0)

TR7_DRM_DRV_ID=DEADBEAT

TR7_DRM_DRV_Rev=0

TR7_DRM_DRV_Ext=1.0.0

TR7_DRM_DRV_Flags=0x3e000000

TR7_DRM_DRV_Name=DRM

Deadbeat run game TR7 press X to exit you get the same error. one more try copy all files in folder TIGER_DRM_DATA to folder TIGER_DRM open the file TR7.exe (at the end of file TIGER_DRM) change this value:

TR7_DRM_DRV_Vendor=Generic(x0)

TR7_DRM_DRV_ID=DEADBEAT

TR7_DRM_DRV_Rev=0

TR7_DRM_DRV_Ext=1.0.0

TR7_DRM_DRV_Flags=0x3e000000

TR7_DRM_DRV_Name=DRM

Deadbeat to this value: TR7_DRM_DR 4bc0debe42
